

# Jyothi Arer

BTM 2nd Stage, Kuvempu Nagar, Bengaluru, Karnataka – 560076 | +91 9019564385 | jyothiarer23@gmail.com

## OBJECTIVE

---

Intend to work in an environment that enhances my skills and motivates me to fully utilize my potential to contribute to the company both individually as well as a team.

## EDUCATION

---

Master of Science (M.Sc.) – Computer Science

Mysore, Karnataka 2026

## EXPERIENCE

---

**Manual Data Quality Engineer | 1.5 Years**

SRIK Consulting Services Pvt. Ltd.

March 25, 2025 – Present

## PROJECT

**Pricing Data Analysis & Validation System** | Worked on a live pricing application responsible for validating pricing logic, business rules, and backend data consistency. Performed manual testing, API validation, and database verification to ensure data accuracy, reliability, and overall application quality.

- Analyzed business requirements and functional specifications.
- Performed API validation using Postman.
- Verified pricing data across UI, API, and database.
- Logged and tracked defects using JIRA.
- Conducted regression testing following bug fixes.
- Validated pricing calculations against defined business rules.
- Improved application quality by identifying critical data inconsistencies.

## Roles & Responsibilities

---

- Performed manual testing of web applications based on business requirements and functional specifications.
- Performed API validation using Postman by verifying request/response data and HTTP status codes.
- Validated vehicle availability, pricing, images, mapping, and location consistency between the internal application UI and the live customer website.
- Identified and reported pricing, image, and location mismatches in JIRA with screenshots and detailed reproduction steps.
- Performed regression testing after bug fixes to ensure application stability.
- Validated pricing calculations and business rules across multiple system layers.
- Collaborated with developers and QA team members to resolve defects efficiently..

## SKILLS

---

### Manual Testing

- Good knowledge in Manual Testing.
- Good knowledge of all phases of SDLC (Software Development Life Cycle).
- Good knowledge of all phases of STLC (Software Test Life Cycle).
- Good knowledge of White Box Testing and Black Box Testing.
- Good knowledge of Test Case Design and Execution.
- Good knowledge in Smoke, Functional, Integration, System, and Acceptance Testing.
- Good knowledge in Compatibility Testing, Regression Testing, Ad-hoc Testing, and Exploratory Testing.
- Knowledge in Test Plan, Test Case Template, and Traceability Matrix.
- Good understanding of Bug Life Cycle.

**Postman / API Testing**

- Good knowledge in API Testing using Postman.
- Knowledge in REST API Testing.
- Good understanding of GET, POST, PUT, and DELETE Methods.
- Knowledge in validating Status Codes and Response Data.

**TECHNICAL SKILLS**

---

Testing Tools: Postman, JIRA

Testing Types: - Functional Testing - Regression Testing - Smoke Testing - Sanity Testing - API Testing - Exploratory Testing - Ad-hoc Testing

Programming: - Python (Basic)

**DECLARATION**

---

I hereby declare that the above-mentioned information is correct up to my knowledge and I bear the responsibility for the correctness of the above-mentioned particulars.
